GLADSTONE'S CROWNING SUCCESS-PEACE IS NOW SECURED,

nother Signal Service to England-Russia's Reply Received-Only Betails Remain Unsettled-Anarchists' Purposes-The Soudan-Fearing El Mahdi-A Serious Warning.

LONDON, May 30 .- The Daily News ansounced this morning on the highest authority that Russia's reply to Eugland's counter-proposals was received in London yesterday. The reply, it says, involves the acceptance of the proposal and prac-tically setties in a satisfactory manner the whole question of the Afghan bound-ary. Both Maruchak and Zulifikar remain in the possession of the ameer. The main features of the work of delimitation have been finally fixed, and the boundary commission will settle the details. The negotiations have been conducted in a most friendly spirit on both sides.

The Daily News, in an editorial, says Mr. Gladstone has crowned his illustrious career by again rendering his country a career by again rendering his country a signal service. We must not forget now that peace is secured how near we came to a war such as this generation has not seen. Neither mere obstinacy nor skill in diplomacy could have averted it. The task requires a combination of the highest qualities which go to make up the complex gift of statesmanship.

IMPEACHMENTS IN MEXICO.

Rupture Between President Diaz and Ex-President Gonzalez - The Government Prepared for Conflict.

CITY OF MEXICO (via Galveston), May -The hostility which has long threatened a rupture between President Diaz and ex-President Gonzalez has finally culminated in an order adopted in con gress for the impeachment of the two secretaries of the treasury under the Consales administration, and also of minor treasury officials. There was great excitoment in congress during the debate, and the articles in the anti-Gonzalez newspapers have been very bitter. Ex-Secretary Fuentes y Muniz, who held the treasury portfolio during the early part of the Gonzalez administration, in an interview to-day with a press representative said he was willing a press representative said he was willing to have his accounts examined, and that although according to the constitution he was exempt from impeachment, he would waive his rights in order to have his reputation vindicated. Public opinion reputation vindicated. Public opinion regards Senor Fuentes y Muniz as an honest man, and his frankness in this crisis confirms the public judgment. He is now manager of the National Bank of Monte de Piedad. Political and business circles are ear-

The City of Brotherly Love Shocked by the "Crookedness" of One of Its Leading Citizens, Which Results in the Collapse of the Shackamazon Bank.

PHILADELPHIA, May 29,-There was an early morning sensation on Third street to-day when the announcement was made that the Shackamaxon Bank had closed its doors, its accounts having been overdrawn to the extent of \$200,000 but the sensation on Third street was not comparable in any degree to that of Kensington itself, in which the bank was comparable in any degree to that of Kensington itself, in which the bank was esteemed fa tower of strength, when the news fairly got abroad that the institution had gone to the wall. There were a thousand rumors dying about, and there was consternation in the faces of those who were depositors. It seems that the late William Bumm, who was a leading politician, and who for seven years represented the eighth ward in select council, and for a time its presiding officer, and who was largely engaged in the importation of salt, was the originator of this bank, which was opened about ten years ago. Mr. Bumm was accounted a wealthy man, and at his demise it was assumed that he left a large estate. Ever since his death, a little less than a year ago, the affairs of the institution have been the subject of watchful concern on the part of the officers of the Philadelphia clearing house, and more especially of Mr. D. B. Cummins, president of the Girard Bauk, which institution made all collections for the insolvent bank.

Mr. Bumm founded the bank, and he practically ewoed it. Mr. Thomas L. Huggard was nominally the eashier, but in reality the clerical drudge of the place, doing all the routine business of the bank, while Mr. Bumm managed his own affairs with a sort of exclusive care which precluded the possibility of any one else gaining an insight into his peculiar doings.

gaining an insight into his poculiar doings.

After Mr. Bumm's successor had assumed control, and the accounts of the institution could be overhauled, a very critical state of affilirs was found to exist. On Monday afternoon the auditing committee of the board of directors met at the bank for the purpose of examining the accounts. When Cashler Huggard was called upon to explain certain matters it is said that he was taken suddenly ill—so seriously as to alarm the gentlemen present, by whom he was removed to his home.

The directors, however, continued to

his home.

The directors, however, continued to investigate and succeeded yesterday in discovering that large sums of money had been obtained from the cashier, of which they had not been informed, and which had, of course, been given without their authority. They found checks indicating that William Bumm & Sons, salt merchants, had obtained the sum of \$115,000, and that Joseph Conklin, a street cleaning contractor, the latter having no account whatever in the bank, had obtained \$88,000.

The aggregate deficit discovered was \$203,000 or \$50,000 more than the combined capital and surplus of the bank. No entry was made of these transactions, but checks were found which it is supposed the cashier had cashed.

These discoveries having been made the directors resolved that the bank's operations should an spend for the prosent.

The stockholders, it is understood, will pay off every dollar of the indebtodness. In addition the directors themselves, it is said, have \$100,000 locked up in the bank, \$30,000 of it having been deposited but a few days ago. The bank was made one of the city depositories last Jane, and had deposited in the bank about \$10,000. The directors, however, continued to

Is will be seen that Knowles, White, and Fulmer have done splendid work with the stick, while Moore's showing in the field is something for him to be proud of. Phil Baker's fielding has rarely ever been excelled. His average includes two games as catcher. His average at first base is 989, he having made but two errors there. Passed balls, called balls, and wid pitches are not included in the percentages of the pitchers and catchers, the design being to confine the averages strictly to fielding errors made from batted balls. Powell and Hoover have picked up in their batting very notleeably as compared with their work in April, while it is something surprising to find Moore at the bettom of the list. Morrissey's average suggests what a loss to the club he was in the batting department. The tables below will afford lovers of the game a subject for study while the home as eatcher.
